

SSPC TECHNICAL COMMITTEE/INTEREST GROUP MEMBERSHIP APPLICATION

Please complete the form below. Return to beggs@sspc.org, fax to 412-444-3591, or mail to SSPC Standards Development, 800 Trumbull Drive, Pittsburgh PA 15205-4365.

Name:	
Company:	
Address:	
Phone:	
E-Mail:	

If you know the specific committee or project you would like to participate in, list it below. Also indicate whether you wish to be added as a voting or non-voting member.

Committee/Project	Type of Membership	
	Voting*	Non-Voting

* SSPC will contact you if you cannot be added to a committee as a voting member.

Can't decide on a project?

- Check each of the Interest Groups to which you would like to be added.
- Interest Groups are polled by e-mail at the beginning of each new project to determine those who are interested in participating in that project.
- You may choose to join the committee for that project as a voting or non-voting member by responding to the e-mail poll.

- C.1 Coatings for Steel (heavy duty corrosion protection)
- C.2 Surface Preparation for Steel (Abrasives, Cleaning Procedures)
- C.3 Application, Inspection, and Quality Control Procedures
- C.4 Methods for Improved Performance
- C.5 Environmental, Health and Safety Concerns
- C.7 Protection of Concrete Substrates (includes coatings and surface preparation)
- C.8 Surface Preparation and Coatings for Commercial/Light Industrial Use

Please keep in mind:

- SSPC committees are formed at the start of each standards development/revision project. Interest group members will be polled for participation in specific projects in areas of interest.
- Voting members cannot be added to any committee after the first formal ballot has been issued. Non-voting (“corresponding”) members may be added at any time.
- Only one voting representative per company is permitted on any committee.
- Membership on a committee may be restricted in order to maintain a balance between interest categories.
- PLEASE let us know when your e-mail address changes!!
